PROJECTS

DataSense — Automated ML Dashboard

Pandas, scikit-learn, matplotlib, OpenPyXL, streamlit

datasense-2f7juyzdda5yjhctphjub.streamlit.app

- Upload any CSV/Excel-->get instant EDA, feature engineering, model training, and reports.

MediVision

Dockers, SDK, Tensorflow, open CV, flask, matplotlib

huggingface.co/spaces/Jamshaid-3990/MediVision

- "MediVision" — a Medical Image Analysis system for Detect the Brain Tumor MRI Classification.

SmartSense IoT

Arduino IDE, Azure, flask, plotly, python ML, LSTM model

huggingface.co/spaces/Jamshaid-3990/smartsense-iot

- Arduino + ESP32 reads sensor data-->(Temperature, Humidity, Pressure)--> Data sends to Azure IoT Hub--> ML model detects anomalies in real-time--> Alert system triggers on anomaly--> Live dashboard shows sensor data-->Historical data analysis

ATS Resume Builder

HTML, CSS, JavaScript, jsPDF

jami-ats-cv-builder.netlify.app

- Built a single-page web app that generates ATS-friendly resumes as real-text PDFs. Auto-fits all content to exactly 1 page by dynamically adjusting font and spacing.
